

Pied Pipers Will Tangle With Abilene Eagles Today

Coach 'Red' Howard will test the strength of his Pied Pipers baseball club here (today) Friday afternoon when he pits them against the strong Abilene High Eagles. Game will be called at 3:30 o'clock p. m.

Pied Pipers have been in training for several days and have a large squad from which to pick up a formidable club. They have shown up well in practice and in their first practice game they defeated the Rotan High School team by a score of 12 to 6.

Coach Howard has announced that Black and Hill will form the starting battery for Friday's game and will be doing the catching, with the Eagles, with Black on the Reserve pitchers will be McCurley

Field Work Survey Begun In Hamlin By T&P Railway

Field work portions of the Texas & Pacific Economic survey for Hamlin began last week with the visit of H. G. Jordan, research assistant in charge of the survey conducted by The University of Texas Bureau of Business Research a report to The Herald disclosed today.

Hamlin's Chamber of Commerce will aid Jordan in gathering material for the study by sending out schedules to various people in the community. Local businessmen and government agencies will be contacted in collecting data on all factors affecting agriculture, industry and commerce.

Due to the fact that this analysis is the first of its type for Hamlin Jordan stressed the importance of cooperation on the part of business men and agencies in supplying information when contacted. According to Jordan, "Some of the material vitally needed to carry the study to completion can be obtained only directly from the people in each locality covered by the study."

This study is part of an economic program sponsored by the Texas & Pacific Railway covering counties along its route to afford a complete inventory of natural, human and capital resources in each territory.

Data will be compiled over a period of years as well as the postwar years in order to chart trends in economic activity of the country over a period of years. Designed to open up the possibilities and conditions which would be of interest to industries contemplating a location in the counties, the study is of primary concern to each locality.

Jordan was formerly in charge of an industrial survey of the Bastrop area prepared by the Bureau for the Bastrop Chamber of Commerce.

Small Communities Ahead In Red Cross Campaign; Larger Towns Lag Behind

Six Jones County communities topped their quotas in the annual Red Cross campaign, reports on the first week showed today, with rural communities coming in stronger than the towns.

For the first time it looked as if the people of the towns were going to have to look to their country neighbors for support. All of those who have made their quotas are rural communities.

First over the top was New Hope. Then came Ericksdahl. And third was Carlton, followed by Lakota, New Light, Sunnyside and Plainview. All their quotas were considerably larger than last year, and all but Plainview exceeded the quota by substantial amounts. \$4,880 has been collected, 59 per cent of the county's quota.

At the end of the first week Anson and Stamford were tied in percentage of quota raised, both having 73 per cent in. Stamford, however, reported that 0 team have not yet sent in their reports and David Ratliff, chairman guaranteed that the quota would be reached.

Hamlin's report of \$529 is approximately 35 per cent of its quota, but is bad compared with \$1,240 for Anson and \$2,409 for Stamford.

Some workers said that people in many instances did not understand the need for substantial Red Cross funds. County Chapter Chairman, Hubert Watson of Stamford, explained it this way:

"More and more destituted folks are being cared for in Jones County by our local chapter every year. We made arrangements with the National Headquarters to try to put our Jones County chapter in shape to handle this increase. We set this high quota ourselves, right here in our county, and asked National Headquarters to let us try it on the provision that we be permitted to keep 62 per cent of the funds right here at home.

"National Headquarters agreed. But we still haven't raised the money."

Drive chairman, Bill Morrow, of Stamford, called on all county

East Extension Filed in Hardy Pool; Discovery Shows Gauges of 119 Barrels

In the Hardy pool, about 10 miles south of Hamlin, location for an east extension to the present north production has been filed as the Great Lakes Carbon Corporation, No. 5 Warren B. Tayman, formerly Hardwick, 1,835 feet from the south and 330 from the east line of the Tayman 300 acre tract in section 11 of block 4 H&TC Survey. Its permit is for 3,750 feet with rotary, and drilling was to have started this week.

After preliminary testing of several wells, official gauge of 119 barrels of 45 gravity oil per day has been filed for the Jones County Frazeir pay discovery about 28 miles south east of Hamlin, the Geochemical Surveys Incorporated, No. 1 J. R. Simpson et al, 330 feet from the south and east lines of the 40 acre Simpson tract in section 18 block 16 T&P Survey.

The production included six per cent water and was on pump from pay at 1,271-2,274 feet. This well had flowed by heads through casing when it was drilled, but its operators were not able to reestablish the flow after the well had been killed to run casing.

Chair men to renew their efforts to get over the top before enthusiasm for the drive burns out.

"Tell your people," he said, "that we set this quota ourselves and we are going to make it. National Headquarters said we couldn't, and didn't like the quota set, but the National Headquarters is not running our Jones County chapter."

"When we make this quota, we will be able to take care of the first to wait for financial assistance of here in the County without having few hours of any emergency right the National Headquarters. This drive is for the County. Keep going till you make it."

Morrow appealed to city chairmen especially to renew their efforts.

Davidson Well, Near McCaulley, Sets Casing

W. F. Davidson well, a mile and a half west of McCaulley townsite came in last Wednesday as The Herald stated about 12:30 o'clock a. m. in the Fisher County pay at 3,170 feet.

The well, said by oil men to be a dandy, is being set with casing this week.

Well was flowing at an estimated 400 barrels at last report.

Leasing in the McCaulley wildcat section, within a mile of the discovery, for one-quarter royalty has jumped from \$40 basis three weeks ago to \$500 basis a report from George Darden of McCaulley, The Herald's correspondent.

EASTER

SEASON'S

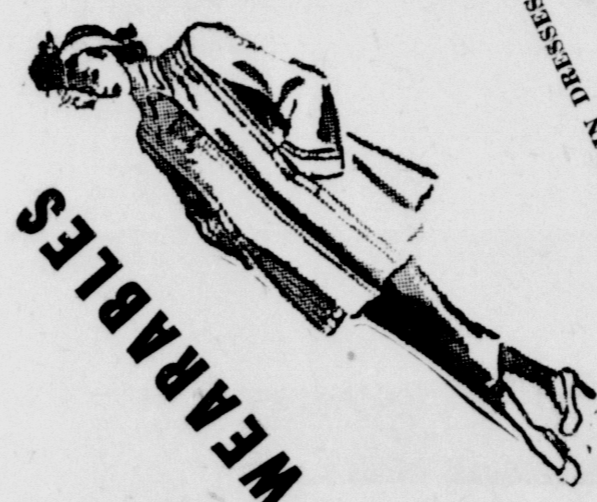

PRIMA DONNAS

There is an old tradition that has come down through the ages, that as surely as Easter means the renewing of Life, of Faith, of Love—it very necessarily means getting that new look, a renewing of your Spring wardrobe. Nothing gives us that Spring Lift like . . . A NEW EASTER SUIT.

This Easter is early, just at the time of year when a suit is the most desirable, most convenient and most wearable.

Come in early and get those new clothes that give you that "Easter feeling."

TRUE STORIES of WEST TEXAS

(By N. H. Kincaid, 2618 Hictory St., Abilene, Texas—Copyrighted)

"THE BOOMERANG OF ADOBE WALLS"

Billy Dixon, the youngster from West Virginia who was now hunting buffalo on the Staked Plains of Texas, threw his bed-roll upon his wagon and turned to untie his horse. Day had not clearly broken but he wanted an early start.

The night, spent in the stockades of Adobe Walls had been filled with talk from other buffalo hunters who had come in from outlying camps. They had heard of a Comanche uprising heading their way. But Billy, having made a trade with James Hanrahan, a hunter on a large scale, decided to make his camp breakup permanent, and so was returning for all his stuff.

But Billy Dixon never untied his horse. The animal, nervously backing and pulling at the stake, had detected the feared savage scent. Quickly Dixon scanned the gloom and saw that the underbrush seemed to be moving slowly towards the fort.

Even then the youngster, Indian hunter though he was, didn't suspect an organized attack. His thought was that the Indians were

nest they had aroused, began backing out of range of those deadly weapons. Before nightfall the coast was clear, and the Indians did not return.

But the fight at Adobe Walls proved a boomerang for the Indians. When the news of the attack reached Dodge City, it was quickly forwarded to Fort Leavenworth, and a definite campaign of subjugation or annihilation was launched against those who refused to go to the reservations. By the late summer of 1874, 2,000 trained troops were in the field and marching towards the Canadian River section of the Llano Estacado.

The idea of the campaign was not to conquer through one decisive victory but to subdue them by continually driving them from one field to another, harassing them constantly.

By May, 1875, the last Indian tribal group had accepted the alternative of the white man. The Army, aided by the severity of the previous winter and the scarcity of the buffalo, had broken their or-

Anson CC Sponsors 55th Annual County Singing Convention

James C. Hestand, manager of the Anson Chamber of Commerce, announced early this week to Hamlin and area people that plans for the 55th annual Jones County Singing Convention will be held April 4, at the Anson High School Auditorium. First convention, people will recall, was held in 1893 and has been held somewhere in Jones County every

year since that date, with Anson named the home of the organization permanently in 1942 and the site of the annual convention.

Arrangements are being made for a record crowd for this second convention since the war. The program draws the largest crowds of any meeting of its kind in the State. A total of over 4,000 having attended on several previous occasions.

The convention is sponsored by the Anson Chamber of Commerce and all organized choirs, quartets and individual singers are being contacted the spokesman for the Anson CC concluded. All out-of-county singers will be guests of the Anson CC for lunch.

If "Number please?" is sometimes delayed...

When you lift your telephone receiver, a light appears on the switchboard in front of several operators. Normally at least one of them can respond quickly. She picks up one of the cords in front of her and plugs it into the switchboard. This connects her with your telephone and she says, "Number, please?"

But nowadays the switchboard is temporarily crowded, serving many people who otherwise would not have service. Many more telephones are in use than ever before, and calling is at an all-time high. The switchboard at times is literally ablaze with

lights—and if you should call during one of these busy times, it is possible that every one of the operators who could answer your call is busy. When that happens, a few extra seconds may elapse until you hear the familiar "Number, please?"

As soon as much-needed equipment can be obtained and installed, we'll be ready to handle your calls quicker and better than ever before. Meanwhile, if at times your call is not answered at once, you'll know that nimble fingers will reach it as soon as they possibly can. We appreciate your patience and understanding.

Most Farm Prices Follow Rising Trends Declines Registered on Some Products

Most farm prices followed rising trends last week, but sharp declines Monday on some products erased much of the gains, according to a report to The Herald from the Production and Marketing Administration of the United States Department of Agriculture.

Cattle scored gains of mostly 50 cents to \$1 during the seven days ending Monday, and calves sold as much as \$1.50 higher at Texas markets. Houston bought good calves at \$25 to \$27, San Antonio and Fort Worth paid from \$24 to \$27 for good and choice grades. Oklahoma City took good and choice calves at \$27 to \$28.50, as heavy lots brought \$21 to \$25 at Wichita and below \$26 at Denver. Good and choice vealers cleared Wichita from \$24 to \$27 and Denver up to \$30.

Sheep prices rose 50 cents to \$1.25 at principal Southwest terminals for the week. Top woolled lambs also brought \$20 at San Antonio, \$22 at Fort Worth and \$21.50 at Oklahoma City. Good and choice grades sold up to \$20.85 at Wichita and \$22 at Denver. San Antonio bought common and medium shorn goats fully steady at \$8 to \$9.

Hogs advanced sharply early last week, but steady losses on succeeding days more than erased the gains. Good and choice medium weight butcher hogs sold Monday at \$22 at San Antonio, \$22.25 to \$22.50 at Fort Worth and Oklahoma City, and \$22.75 to \$23.25 at Wichita and Kansas City. Sows sold from \$16 to \$19.

Egg prices dropped off a couple of cents per dozen last week as Spring supplies increased rapidly. Dallas paid around 38 cents a dozen for current receipts Monday as Fort Worth gave 39 to 40 cents. Poultry held firm. Heavy hens brought 24 to 26 cents a pound at Dallas and Fort Worth, light hens 20 to 22 and

fryers 32 to 35. Monday's cotton losses more than erased gains of late last week. Spot middling 15-16 inch closed Monday at 33.10 cents a pound at Dallas, 33 cents at Houston and 32.90 cents at New Orleans.

Most grains advanced sharply last week to regain levels of a month ago but liquidated most of the gains in a sudden break over the week-end. No. 2 white corn closed Monday at \$2.86½ per bushel at Texas common points, and No. 1 wheat at \$2.52.

Feed prices advanced mostly \$1 to \$2 per ton, as medium and low qualities of hay declined 50 cents to \$1.50. Fine Texas wools continued in demand at steady prices.

Mrs. T. R. Tegart and Miss Louise Proctor returned Friday night from Abilene, where they attended a chief operators conference for the Abilene District of the Southwestern Telephone Company.

More people drive...
More people want
CHEVROLETS
than any other make of car

True for years—and truer than ever today—with the advent of this newer, smarter, finer Chevrolet for 1948! Official registration figures prove that more people drive Chevrolets—and seven independent surveys prove that more people want Chevrolets—than any other make of car! The reason, of course, is more value. And now Chevrolet value is made all the more outstanding by the smart new styling, brilliant new colors, and even more luxuriously appointed interiors which have been added to all

the other advantages of Chevrolet's famous BIG-CAR QUALITY AT LOWEST COST. See the new 1948 Chevrolet, and you'll know why more people drive Chevrolets than any other make!

You'll admire the tasteful new styling, the new color harmonies, the new and richer upholstery and appointments which add so much to the enviable Big-Car beauty of Chevrolet's Body by Fisher.

You'll find there isn't any other car in its field that gives the Big-Car comfort of Chevrolet for 1948—direct result of the Unitized Knee-Action Gliding Ride.

Chevrolet's world's champion Valve-in-Head engine gives an unequalled combination of performance, endurance, dependability and economy.

The record demand for new Chevrolet prompts us to suggest that you keep present car in good running condition. See us for service—today!

READY FOR DUTY AGAIN NURSE PRAISES RETONGA

"I Felt Like I Needed A Nurse Myself," Declares Mrs. Stephens. "But Thanks To Retonga I Now Go About My Work Singing Instead Of Grunting," Tells Happy Experience.

"I have been a practical nurse for 20 years and from the relief Retonga gave in my own case Retonga proved it is far ahead of anything in my experience," declares Mrs. O. R. Stephens, well-known resident of 115 McCaskill Street, San Antonio, Texas.

"I got to where everything I ate seemed to disagree with me," stated Mrs. Stephens. "Food seemed to sour almost as soon as I swallowed it. I would belch up undigested particles after every meal and I often felt bloated before I left the table. Gas pressure was so strong

at night I had difficulty in sleeping. I had to take a powerful laxative practically every day for several years. I had splitting headaches, and I felt worn-out continually."

"In just three days on Retonga I began to notice decided relief. Now I enjoy my meals without discomfort afterward. The sourness, gas, constipation, and headaches are fully relieved, and I go about my house work singing instead of grunting. I used to feel like I needed a nurse myself, but I feel so much better since taking Retonga I may go back to nursing again. Retonga is grand."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, Vitamin B-1 deficiency, and constipation. Accept no substitute. Retonga may be obtained at Waggoner Drug Company. (Adv)

Cash Farm Income from Cotton to Near Record High Survey Discloses

Cash farm income from cotton in Jones County and the rest of Texas is destined to register a near record high for the 1947-48 cotton year, according to a release to The Herald from the University of Texas Bureau of Business Research at Austin.

Jones County's production of several thousand bales cotton, sold at more than 30 cents per pound average, had brought more than \$4,000,000 to farmers of the area.

Dr. A. B. Cox, professor of cotton marketing at the University's Col-

lege of Business Administration and an outstanding authority on cotton, analyzed government estimates that show the present crop of cotton and cottonseed will bring to farmers of Texas about \$631,000,000 dollars in cash. The only other time this was ever exceeded was for the crop of 1923 when Texas produced 4,340,000 bales of cotton.

This 1947-48 income is produced on a crop estimated at 3,300,000 bales, while the 1923 crop totaled 4,340,000 bales.

August 1 carry-over for the entire nation, however, shrank to only 2,521,000 bales, one of the smallest carry-over figures on record and the lowest registered since the 20's. The United States crop is set for 11,694,000 bales according to December 1 government estimates, with the December 1 balance placed at 11,125,000 bales.

"Cash farm income figures on Texas 1947-48 crop label cotton as Texas' most valuable crop," Dr. Cox

Army Sets Time Limit for Reenlistees in First Grade Only

Hamlin men interested in the Army are advised this week that all non-regular officers, warrant officers now on active duty with the Army have been given until July 1 to express desires to re-enlist with the regular Army, as a master sergeant.

This information recently was issued in the form of a Department of Army circular and is of primary concern to men who came from civil life and obtained commissions during the past war. The circular

said, "although cotton as a crop is subject to great improvement, especially in terms of yield per acre, improvement in qualities of fibers, and in lowering costs of production. "Cotton and cottonseed are two of the world's greatest industrial raw materials. There are, likewise, great opportunities in Texas to increase income from these products by a more extensive use of them as raw materials for new industries in Texas," Dr. Cox concluded.

stipulates that any former enlisted man who held the grade of sergeant or above as of January 1, 1941 may apply for enlistment in the first grade.

After July 1, a former officer can no longer enlist in the first grade by virtue of having served as an officer or warrant officer in wartime.

Certificates may be applied for by eligible former enlisted men through channels before July 1. These certificates will authorize the individual to enlist within 90 days after separation, but such enlistments must be accomplished before September 30.

Former Regular Army enlisted men are not affected and are allowed to enlist in their former grade in accordance with Army Regulation 600-750 the report concludes.

Visiting in the home of Mr. and Mrs. Joe Culbertson over the weekend were their daughter, Mr. and Mrs. Edgar Boaz of Anson and her girl friend, Miss Joan Crabb of Leonard; also Mrs. Culbertson's sister, Miss Judy Vie of Brokenridge is in Hamlin for a few days visit.

J. H. Chambers of Cisco visited Mr. and Mrs. Joe Simpson Tuesday.

Rev. and Mrs. Denzil Duke, Abernathy, were guests in the home of W. B. Cotten recently. Rev. Duke was a delegate to the Nazarene Convention held in the Baptist Church.

making the most
of trends

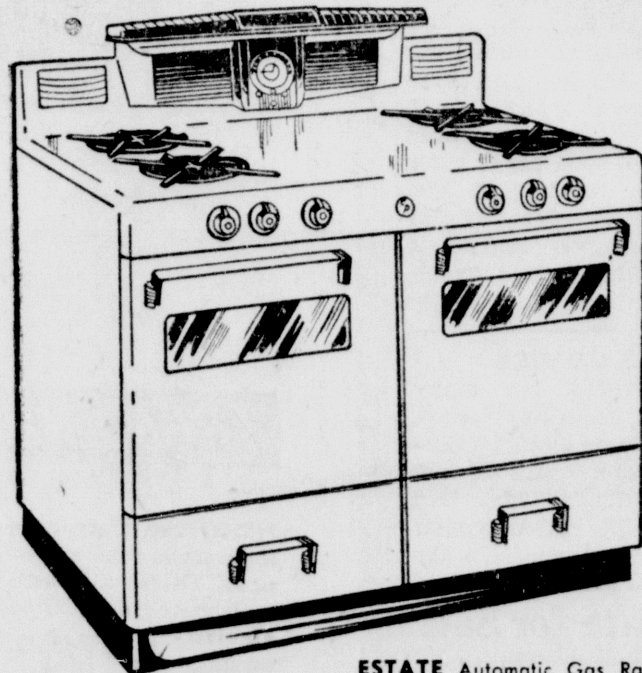

Navy... fashioned in a scarf collar, nipped in waistline, peplum effect on the jacket. Flaring skirt. White accessories. A fashion in suits appropriate for the shift to the new, more feminine spring silhouette.

With those women who are foremost in adapting new trends to their individuality, an automatic gas range built to "CP" standards enjoys high favor.

In cottage or mansion they recognize its practical efficiency. On busy days they find it indispensable to work and pleasure.

Automatic lighting, automatic oven heat control, thrifty simmer burners save time, work, and money. Automatic clock control that turns gas on, cooks oven meal, then turns gas off, gives them "New Freedom" for at-home or away-from-home activities.

Their appreciation of style increases their interest in a "CP" model range. They commend its fine lines and harmonious fittings as emphatically as they approve the freedom from kitchen drudgery a "CP" model range affords.

ESTATE Automatic Gas Range built to "CP" standards styled with 18-inch oven, waist-high broiler... perfect complement to "New Freedom" kitchen. One of the many brands of "CP" models available in Southwest stores.

Osculation, a Favorite Sport.

A kiss is a peculiar proposition: use to no one, yet absolute bliss to two. The small boy gets it for nothing, the young man has to lie for it, and the old man has to buy it. The baby's right, the lover's privilege and the hypocrite's mask. To a young girl, faith; to the married woman, hope; and to an old maid, charity.

"Just leave the house cleaning to me"

WEST TEXAS UTILITIES COMPANY

GRANDMA will tell you that housecleaning was one chore she hated—and Grandpa dreaded. But that was before Reddy Kilowatt, your electric servant, was available to take so much work out of housework.

Now, with the low-cost, dependable electric servant, Reddy Kilowatt, ready to lend a hand—or a dozen hands—housecleaning has been stripped of much of its drudgery. Housecleaning—and housekeeping, as well.

For about a dime a day, the housewife has a dozen helpers at her elbow. Today, electric servants wash, cook, sew and clean—they preserve her food, light her home and entertain her guests.

Never before has electric service done so much to make life easier and more comfortable. Yet the West Texas Utilities Company is furnishing to residential consumers electric service at rates 17 per cent less than ten years ago. What other item in the budget does so much for so little?

POT-SHOTS FROM McCAULLEY

By GEORGE DARDEN

It looks as if the oil boom in McCaulley is on, the W. F. Davidson well, one mile and a half west of the townsite was flowing last Thursday morning at a depth of 3,170 feet. The well is said to be a dandy—what ever that means.

Mrs. Lottie Rector has returned to her home after several days visit with relatives in Coleman.

Thanks to Levi McCollum, the insurance man, for a year's renewal to The Herald.

Men on working on the water system for the Ed Mason Gymnasium and by the time basketball season rolls around again the kids will have showers and that is something.

Starr Inzer, stockman, wheat farmer, druggist and oil man was in McCaulley last Thursday looking over the oil prospects.

The new feed business recently added in connection with the Gin business and known as McCaulley Supply Company has started off in high gear, feeds of every description including the well known line of Anchor Feeds is being retailed.

Luther Maberry recently purchased the Ben Maberry residence east of town and will move in to McCaulley.

Caulley for their home.

Your Herald may have expired, better send the Pot-Shot man your renewal before you miss a paper. You wouldn't want to be in the dark on what your neighbor is doing and too, oil may start flowing down main street at any minute. And lest ye forget the Cemetery Fund needs your contributions. The Red Cross drive is on and McCaulley's quota is \$150. Thanks in advance.

Mr. and Mrs. James Fancher from California have moved back to McCaulley for the present. James is the son of Mr. and Mrs. J. M. Fancher of this community.

L. E. Miers and son from Muleshoe visited relatives in this community last week.

C. P. Yates and W. J. Madden of Hamlin were looking over the oil situation in McCaulley last Saturday.

A complete line of field seeds has been added to the feed store stock of McCaulley Supply Company.

Carl Blomshield, chairman of the Council Committee on Camping and Activities for the Buffalo Trail Council Boy Scouts of America, has called a special meeting of his committee for Thursday, March 11th, at 7:00 o'clock p. m. at the Settles Hotel in Big Spring. George Darden is a member of the committee from this district.

Lamont Haley, Fisher County Judge, has withdrawn from the race as County Judge to enter the race for Representative. Harley Sadler is the present member of the legislature, but will not seek reelection and has entered the race for the State Senate.

Casing is being set for the new Fisher County wildcat oil well on the W. F. Davidson place, one mile and a half west of McCaulley. The well is a new discovery which means

that more development is in the making for these parts.

W. C. (Bill) Kean tells us that he has six weeks old fryers that weigh two pounds and if you like fried chicken, he will sell about 100.

Over 100 special veneremen have been called for Monday of this week in the District Court of Fisher County at Roby. Willie Preston, negro, is to be tried for the robbery and assault with intent to kill Mr. and Mrs. Willard Burk.

There will be a donkey basketball game in the Ed Mason Gymnasium on the night of March 19. You won't want to miss the fun.

The Methodist meeting that was postponed last week in order not to conflict with the Baptist meeting of this week will begin their revival meeting today, March 7. The meeting runs through the 14. You are invited.

Sunday guests in the home of Mr. and Mrs. Frank Houghton were: Mr. and Mrs. Turner Houghton of Roby, L. C. Houghton of Hamlin, Mr. and Mrs. Sherman Houghton and Mr. and Mrs. George Darden and children.

Shortly after the Civil War, the letters GTT were used through out the old South to indicate—Gone to Texas. Many a marchant left his

shop with no other notice than that. Since the McCaulley oil boom there may be other merchants who place signs on their doors with read GTM, meaning of course—Gone to McCaulley.

Bobbie Crowley, McMurtry College, Abilene student, was home with his parents, Mr. and Mrs. Claude Crowley over the week-end.

Mr. and Mrs. John Sewell from Collette visited her parents, Mr. and Mrs. Albert George last week-end.

John Ed Reed, H. N. Reed and Potts who live west of McCaulley leased their land to the Stanard Oil Company last Saturday the reported price was \$5 per acre.

Cecil Woods suffered a broken

ankle when he attempted to load a bull in a trailer last week.

Three weeks ago the highest price offered for one quarter royalty with in a mile of the W. F. Davidson discovery well was \$40 basis, now the price has jumped from \$100 to a \$500 basis. Well anyway we gotta notion that McCaulley citizens are due a break, they weathered the depression, fought sand storms, drank gyp water and many even had to go the WPA route for a livelihood but they kept their chins up and when the war came they stuck together, bought bonds, contributed to the Red Cross, March of Dimes and every worthy cause, sent their boys and girls off to battle and the

battle and the sad part—some never came back. Well after all, maybe the good Lord is going to smile down on our community and direct

Humble, Standard Oil and others to give the home team break with that oily stuff called "flowing gold."—A-Darden-O-Gr

Pied Pipers Will Tangle With Abilene Eagles Today

Coach 'Red' Howard will test the strength of his Pied Pipers baseball club here (today) Friday afternoon when he pits them against the strong Abilene High Eagles. Game will be called at 3:30 o'clock p. m.

Pied Pipers have been in training for several days and have a large squad from which to pick up a formidable club. They have shown up well in practice and in their first practice game they defeated the Rotan High School team by a score of 12 to 6.

Coach Howard has announced that Black and Hill will form the starting battery for Friday's game and Hill doing the catching, with the Eagles, with Black on the Reserve pitchers will be McCurley.

Field Work Survey Begun In Hamlin By T&P Railway

Field work portions of the Texas & Pacific Economic survey for Hamlin began last week with the visit of H. G. Jordan, research assistant in charge of the survey conducted by The University of Texas Bureau of Business Research a report to The Herald disclosed today. Hamlin's Chamber of Commerce will aid Jordan in gathering material for the study by sending out schedules to various people in the community. Local businessmen and government agencies will be contacted in collecting data on all factors affecting agriculture, industry and commerce.

Due to the fact that this analysis is the first of its type for Hamlin Jordan stressed the importance of cooperation on the part of business men and agencies in supplying information when contacted. According to Jordan, "Some of the material vitally needed to carry the study to completion can be obtained only directly from the people in each locality covered by the study."

This study is part of an economic program sponsored by the Texas & Pacific Railway covering counties along its route to afford a complete inventory of natural, human and capital resources in each territory.

Data will be compiled over a period of years as well as the postwar years in order to chart trends in economic activity of the country over a period of years. Designed to open up the potentialities and conditions which would be of interest to industries contemplating a location in the counties, the study is of primary concern to each locality.

Jordan was formerly in charge of an industrial survey of the Bastrop area prepared by the Bureau for the Bastrop Chamber of Commerce.

Marshall Reed of Jones County Is Given Pardon

In a news release from Governor Beauford H. Jester late last week when he granted three conditional pardons to prisoners previously rejected was received by Marshall Reed.

Reed, Hamlin and area people will recall, was sentenced to life imprisonment for habitual theft from Jones County, February 8, 1935.

Who's New

Mr. and Mrs. Elva Hines are the proud parents of a daughter, Erna Mae, who arrived at a Stamford hospital March 3. She tipped the scales at seven pounds and 10 ounces. Maternal grandmother is Mrs. O. R. Latham and paternal grandparents are Mr. and Mrs. J. J. Hines all of Hamlin.

Mrs. Wesley Redus, Mrs. R. L. Dean and Mrs. Lott Shell were in Abilene Tuesday on business.

and Carter, with Stapler as the reserve backstop. Other members of the starting lineup will include: Franks at first base, Rowland or Putman at second, Brigham at short May third base, C. Townsend in left field, W. Townsend in center and Ford is right field.

Others on the trial squad include: J. W. Carter, Louis LaBaume, John Holland, Asa Ray Goodgame, Donald Young, Donald Gregory, Gene Westmoreland, Tommy Latham, Monroe Tabb, Casey Jones, Kenneth Holloway, Alton Kite and Bobby Bagwell, some of whom may see action this evening.

A small admission fee will be charged for the game it has been announced.

Hamlin C of C to Have Regular Meet

Next Tuesday is the regular meeting date for the Hamlin Chamber of Commerce.

Newly elected president J. S. Inzer, will preside and appoint committees to get off another year of activities.

Plans are being made for the annual banquet of April 16 at the Hamlin High School cafeteria and auditorium. Jeff H. Williams, of Chickasha, Oklahoma will be the guest speaker for the evening.

First Baby Born at Hospital Saturday

Dan Alfred Striplin, son of Pfc. and Mrs. William Alfred Striplin, had the honor of being the first baby born in the new Hamlin Memorial Hospital.

He was born Saturday, February 28 at 8:30 o'clock p. m. and weighed eight pounds and 10 ounces.

The mother is the former Leota Ellen Fannin, daughter of Mr. and Mrs. Orb Fannin of Hamlin.

The father is in the regular Army Squadron D, 401st BU stationed at Hamilton Field, California. He did not arrive in Hamlin until Friday, March 5 to see the new son. This is the couple's second child.

Small Communities Ahead In Red Cross Campaign; Larger Towns Lag Behind

Six Jones County communities topped their quotas in the annual Red Cross campaign, reports on the first week showed today, with rural communities coming in stronger than the towns.

For the first time it looked as if the people of the towns were going to have to look to their country neighbors for support. All of those who have made their quotas are rural communities.

First over the top was New Hope. Then came Ericksdahl. And third was Carlton, followed by Lakota, New Light, Sunnyside and Plainview. All their quotas were considerably larger than last year, and all but Plainview exceeded the quota by substantial amounts. \$4,880 has been collected, 59 per cent of the county's quota.

At the end of the first week Anson and Stamford were tied in percentage of quota raised, both having 73 per cent in. Stamford, however, reported that 0 team have not yet sent in their reports and David Ratliff, chairman guaranteed that the quota would be reached.

Hamlin's report of \$529 is approximately 35 per cent of its quota, but is bad compared with \$1,240 for Anson and \$2,409 for Stamford.

Some workers said that people in many instances did not understand the need for substantial Red Cross funds. County Chapter Chairman, Hubert Watson of Stamford, explained it this way:

"More and more destituted folks are being cared for in Jones County by our local chapter every year. We made arrangements with the National Headquarters to try to put our Jones County chapter in shape to handle this increase. We set this high quota ourselves, right here in our county, and asked National Headquarters to let us try it on the provision that we be permitted to keep 62 per cent of the funds right here at home.

"National Headquarters agreed. But we still haven't raised the money."

Drive chairman, Bill Morrow, of Stamford, called on all county

East Extension Filed in Hardy Pool; Discovery Shows Gauges of 119 Barrels

In the Hardy pool, about 10 miles south of Hamlin, location for an east extension to the present north production has been filed as the Great Lakes Carbon Corporation, No. 5 Warren B. Tayman, formerly Hardwick, 1,835 feet from the south and 330 from the east line of the Tayman 300 acre tract in section 11 of block 4 H&TC Survey. Its permit is for 3,750 feet with rotary, and drilling was to have started this week.

After preliminary testing of several weeks, official gauge of 119 barrels of 45 gravity oil per day has been filed for the Jones County Frazee pay discovery about 28 miles south east of Hamlin, the Geochemical Surveys Incorporated, No. 1 J. R. Simpson et al, 330 feet from the south and east lines of the 40 acre Simpson tract in section 18 block 16 T&P Survey.

The production included six per cent water and was on pump from pay at 1,271-2,274 feet. This well had flowed by heads through casing when it was drilled, but its operators were not able to reestablish the flow after the well had been killed to run casing.

Chair men to renew their efforts to get over the top before enthusiasm for the drive burns out.

"Tell your people," he said, "that we set this quota ourselves and we are going to make it. National Headquarters said we couldn't, and didn't like the quota set, but the National Headquarters is not running our Jones County chapter.

"When we make this quota, we will be able to take care of the first to wait for financial assistance of here in the County without having few hours of any emergency right the National Headquarters. This drive is for the County. Keep going till you make it."

Morrow appealed to city chairmen especially to renew their efforts.

Davidson Well, Near McCaulley, Sets Casing

W. F. Davidson well, a mile and a half west of McCaulley townsite came in last Wednesday as The Herald stated about 12:30 o'clock a. m. in the Fisher County pay at 3,170 feet.

The well, said by oil men to be a dandy, is being set with casing this week.

Well was flowing at an estimated 400 barrels at last report.

Leasing in the McCaulley wildcat section, within a mile of the discovery, for one-quarter royalty has jumped from \$40 basis three weeks ago to \$500 basis a report from George Darden of McCaulley, The Herald's correspondent.

TRUE STORIES OF WEST TEXAS

(By N. H. Kincaid, 2618 Hictory St., Abilene, Texas—Copyrighted)

"THE BOOMERANG OF ADOBE WALLS"

Billy Dixon, the youngster from West Virginia who was now hunting buffalo on the Staked Plains of Texas, threw his bed-roll upon his wagon and turned to untie his horse. Day had not clearly broken but he wanted an early start.

The night, spent in the stockades of Adobe Walls had been filled with talk from other buffalo hunters who had come in from outlying camps. They had heard of a Comanche uprising heading their way. But Billy, having made a trade with James Hanrahan, a hunter on a large scale, decided to make his camp breakup permanent, and so was returning for all his stuff.

But Billy Dixon never untied his horse. The animal, nervously backing and pulling at the stake, had detected the feared savage scent. Quickly Dixon scanned the gloom and saw that the underbrush seemed to be moving slowly towards the fort.

Even then the youngster, Indian hunter though he was, didn't suspect an organized attack. His thought was that the Indians were

Hasn't Had a Chance.

During the impaneling of a jury, the judge asked:
"You are a property holder?"
"Yes, your honor."
"Married or single?"
"I have been married for five years, your honor."
"Have you formed or expressed an opinion?"
"Not for five years, your honor."

nest they had aroused, began backing out of range of those deadly weapons. Before nightfall the coast was clear, and the Indians did not return.

But the fight at Adobe Walls proved a boomerang for the Indians. When the news of the attack reached Dodge City, it was quickly forwarded to Fort Leavenworth, and a definite campaign of subjugation or annihilation was launched against those who refused to go to the reservations. By the late summer of 1874, 2,000 trained troops were in the field and marching towards the Canadian River section of the Llano Estacado.

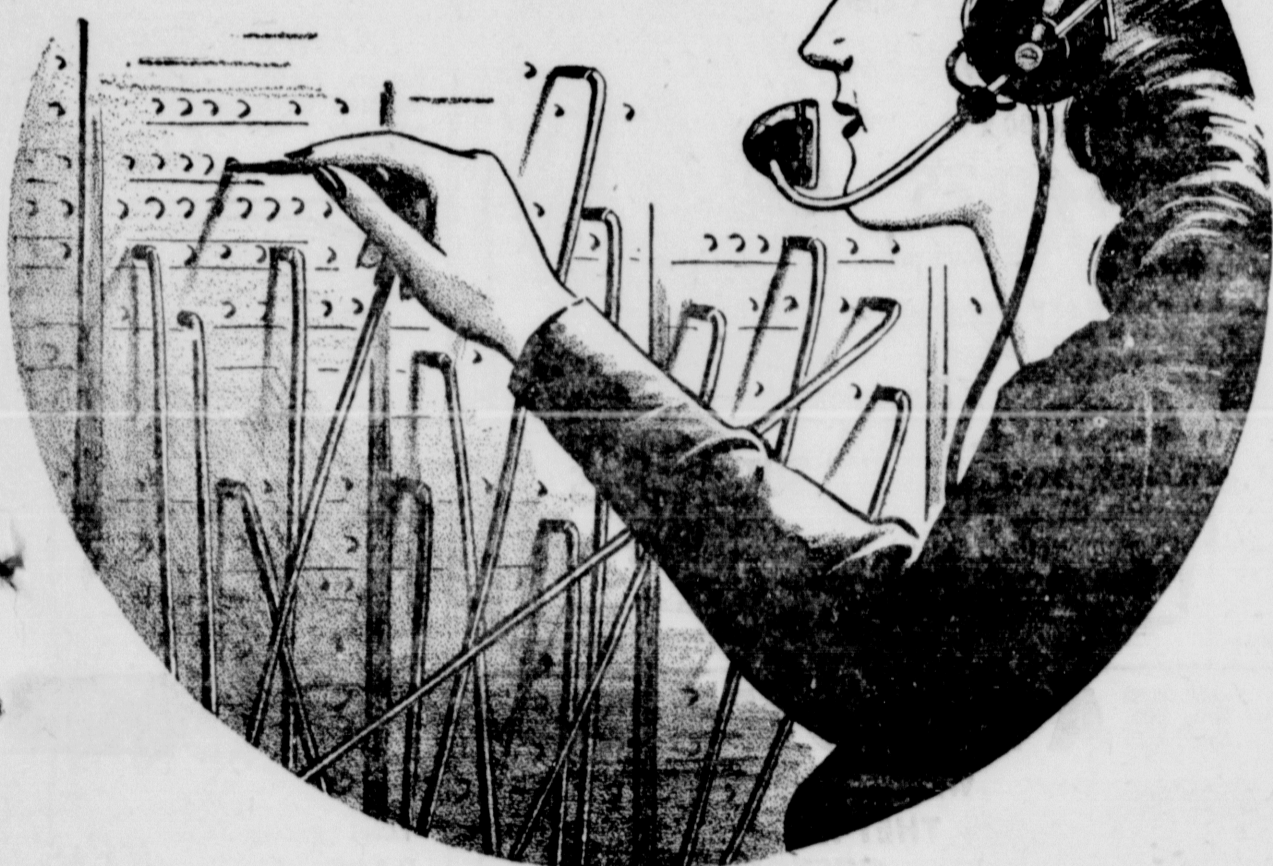

The idea of the campaign was not to conquer through one decisive victory but to subdue them by continually driving them from one field to another, harrassing them constantly.

By May, 1875, the last Indian tribal group had accepted the alternative of the white man. The Army, aided by the severity of the previous winter and the scarcity of the buffalo, had broken their or-

If "Number please?" is sometimes delayed...

When you lift your telephone receiver, a light appears on the switchboard in front of several operators. Normally at least one of them can respond quickly. She picks up one of the cords in front of her and plugs it into the switchboard. This connects her with your telephone and she says, "Number, please?"

But nowadays the switchboard is temporarily crowded, serving many people who otherwise would not have service. Many more telephones are in use than ever before, and calling is at an all-time high. The switchboard at times is literally ablaze with

lights—and if you should call during one of these busy times, it is possible that every one of the operators who could answer your call is busy. When that happens, a few extra seconds may elapse until you hear the familiar "Number, please?"

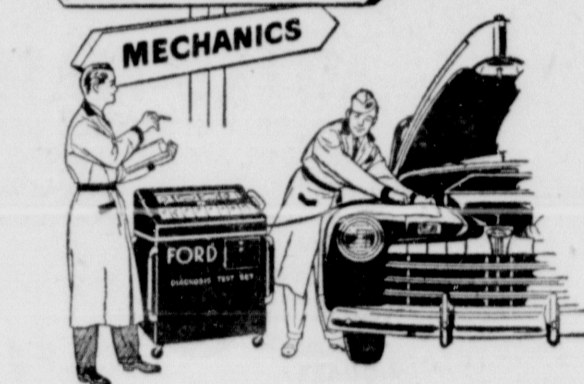

As soon as much-needed equipment can be obtained and installed, we'll be ready to handle your calls quicker and better than ever before. Meanwhile, if at times your call is not answered at once, you'll know that nimble fingers will reach it as soon as they possibly can. We appreciate your patience and understanding.

Most Farm Prices Follow Rising Trends Declines Registered on Some Products

Most farm prices followed rising trends last week, but sharp declines Monday on some products erased much of the gains, according to a report to The Herald from the Production and Marketing Administration of the United States Department of Agriculture.

Cattle scored gains of mostly 50 cents to \$1 during the seven days ending Monday, and calves sold as much as \$1.50 higher at Texas markets. Houston bought good calves at \$25 to \$27, San Antonio and Fort Worth paid from \$24 to \$27 for good and choice grades. Oklahoma City took good and choice calves at \$27 to \$28.50, as heavy lots brought \$21 to \$25 at Wichita and below \$26 at Denver. Good and choice vealers cleared Wichita from \$24 to \$27 and Denver up to \$30.

Sheep prices rose 50 cents to \$1.25 at principal Southwest terminals for the week. Top woolled lambs also brought \$20 at San Antonio, \$22 at Fort Worth and \$21.50 at Oklahoma City. Good and choice grades sold up to \$20.85 at Wichita and \$22 at Denver. San Antonio bought common and medium short goats fully steady at \$8 to \$9.

Hogs advanced sharply early last week, but steady losses on succeeding days more than erased the gains. Good and choice medium weight butcher hogs sold Monday at \$22 at San Antonio, \$22.25 to \$22.50 at Fort Worth and Oklahoma City, and \$22.75 to \$23.25 at Wichita and Kansas City. Sows sold from \$16 to \$19.

Egg prices dropped off a couple of cents per dozen last week as Spring supplies increased rapidly. Dallas paid around 38 cents a dozen for current receipts Monday as Port Worth gave 39 to 40 cents. Poultry held firm. Heavy hens brought 24 to 26 cents a pound at Dallas and Port Worth, light hens 20 to 22 and

frayers 32 to 35. Monday's cotton losses more than erased gains of late last week. Spot middling 15-16 inch closed Monday at 33.10 cents a pound at Dallas, 33 cents at Houston and 32.90 cents at New Orleans.

Most grains advanced sharply last week to regain levels of a month ago but liquidated most of the gains in a sudden break over the week-end. No. 2 white corn closed Monday at \$2.86½ per bushel at Texas common points, and No. 1 wheat at \$2.52.

Feed prices advanced mostly \$1 to \$2 per ton, as medium and low qualities of hay declined 50 cents to \$1.50. Fine Texas wools continued in demand at steady prices.

Mrs. T. R. Tegart and Miss Louise Proctor returned Friday night from Abilene, where they attended a chief operators conference for the Abilene District of the Southwestern Telephone Company.

Cash Farm Income from Cotton to Near Record High Survey Discloses

Cash farm income from cotton in Jones County and the rest of Texas is destined to register a near record high for the 1947-48 cotton year, according to a release to The Herald from the University of Texas Bureau of Business Research at Austin.

Jones County's production of several thousand bales cotton, sold at more than 30 cents per pound average, had brought more than \$4,000,000 to farmers of the area.

Dr. A. B. Cox, professor of cotton marketing at the University's Col-

lege of Business Administration and an outstanding authority on cotton, analyzed government estimates that show the present crop of cotton and cottonseed will bring to farmers of Texas about \$631,000,000 dollars in cash. The only other time this was ever exceeded was for the crop of 1923 when Texas produced 4,340,000 bales of cotton.

This 1947-48 income is produced on a crop estimated at 3,300,000 bales, while the 1923 crop totaled 4,340,000 bales.

August 1 carry-over for the entire nation, however, sank to only 2,521,000 bales, one of the smallest carry-over figures on record and the lowest registered since the 20's. The United States crop is set for 11,694,000 bales according to December 1 government estimates, with the December 1 balance placed at 11,125,000 bales.

"Cash farm income figures on Texas 1947-48 crop label cotton as Texas' most valuable crop," Dr. Cox

Army Sets Time Limit for Reenlistees In First Grade Only

Hamlin men interested in the Army are advised this week that all non-regular officers, warrant officers now on active duty with the Army have been given until July 1 to express desires to re-enlist with the regular Army, as a master sergeant.

This information recently was issued in the form of a Department of Army circular and is of primary concern to men who came from civil life and obtained commissions during the past war. The circular

said, "although cotton as a crop is subject to great improvement, especially in terms of yield per acre, improvement in qualities of fibers, and in lowering costs of production."

"Cotton and cottonseed are two of the world's greatest industrial raw materials. There are, likewise, great opportunities in Texas to increase income from these products by a more extensive use of them as raw materials for new industries in Texas," Dr. Cox concluded.

stipulates that any former enlisted man who held the grade of sergeant or above as of January 1, 1941 may apply for enlistment in the first grade.

After July 1, a former officer can no longer enlist in the first grade by virtue of having served as an officer or warrant officer in wartime.

Certificates may be applied for by eligible former enlisted men through channels before July 1. These certificates will authorize the individual to enlist within 90 days after separation, but such enlistments must be accomplished before September 30.

Former Regular Army enlisted men are not effected and are allowed to enlist in their former grade in accordance with Army Regulation 600-750 the report concludes.

Visiting in the home of Mr. and Mrs. Joe Culbertson over the weekend were their daughter, Mr. and Mrs. Edgar Boaz of Anson and her girl friend, Miss Joan Crabb of Leonard; also Mrs. Culbertson's sister, Miss Judy Vile of Brokenridge is in Hamlin for a few days visit.

J. H. Chambliss of Cisco visited Mr. and Mrs. Joe Simpson Tuesday.

Rev. and Mrs. Denzil Duke, Abernathy, were guests in the home of W. B. Cotten recently. Rev. Duke was a delegate to the Nazarene Convention held in the Baptist Church.

making the most of trends

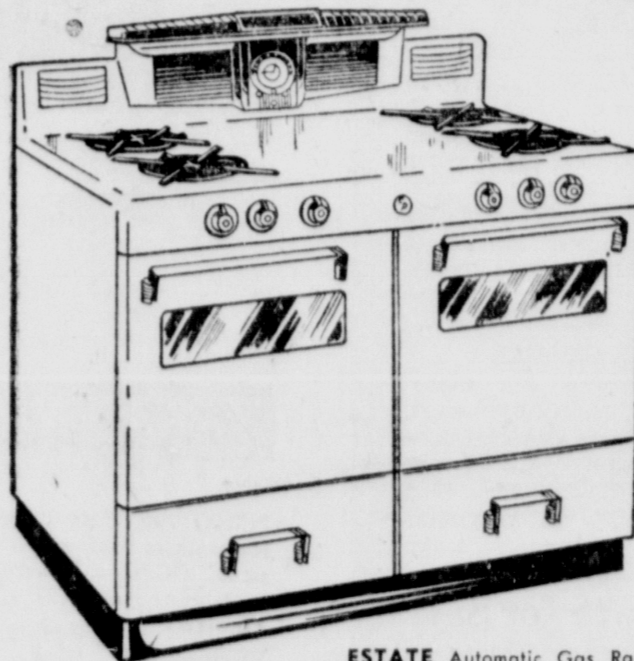

Navy...fashioned in a scarf collar, nipped in waistline, peplum effect on the jacket. Flaring skirt. White accessories. A fashion in suits appropriate for the shift to the new, more feminine spring silhouette.

With those women who are foremost in adapting new trends to their individuality, an automatic gas range built to "CP" standards enjoys high favor.

In cottage or mansion they recognize its practical efficiency. On busy days they find it indispensable to work and pleasure.

Automatic lighting, automatic oven heat control, thrifty simmer burners save time, work, and money. Automatic clock control that turns gas on, cooks oven meal, then turns gas off, gives them "New Freedom" for at-home or away-from-home activities.

Their appreciation of style increases their interest in a "CP" model range. They commend its fine lines and harmonious fittings as emphatically as they approve the freedom from kitchen drudgery a "CP" model range affords.

ESTATE Automatic Gas Range built to "CP" standards styled with 18-inch oven, waist-high broiler...perfect complement to "New Freedom" kitchen. One of the many brands of "CP" models available in Southwest stores.

WEST TEXAS UTILITIES CO. GIVE!

GRANDMA will tell you that housecleaning was one chore she hated—and Grandpa dreaded. But that was before Reddy Kilowatt, your electric servant, was available to take so much work out of housework.

Now, with the low-cost, dependable electric servant, Reddy Kilowatt, ready to lend a hand—or a dozen hands—housecleaning has been stripped of much of its drudgery. Housecleaning—and housekeeping, as well.

For about a dime a day, the housewife has a dozen helpers at her elbow. Today, electric servants wash, cook, sew and clean—they preserve her food, light her home and entertain her guests.

Never before has electric service done so much to make life easier and more comfortable. Yet the West Texas Utilities Company is furnishing to residential consumers electric service at rates 17 per cent less than ten years ago. What other item in the budget does so much for so little?

POT-SHOTS FROM McCaULEY

By GEORGE DARDEN

It looks as if the oil boom in McCauley is on, the W. F. Davidson well, one mile and a half west of the townsite was flowing last Thursday morning at a depth of 3,170 feet. The well is said to be a dandy—what ever that means.

Mrs. Lottie Rector has returned to her home after several days visit with relatives in Coleman.

Thanks to Levi McCollum, the insurance man, for a year's renewal to The Herald.

Men working on the water system for the Ed Mason Gymnasium and by the time basketball season rolls around again the kids will have showers and that is something.

Starr Inzer, stockman, wheat farmer, druggist and oil man was in McCauley last Thursday looking over the oil prospects.

The new feed business recently added in connection with the Gin business and known as McCauley Supply Company has started off in high gear, feeds of every description including the well known line of Anchor Feeds is being retailed.

Luther Maberry recently purchased the Ben Maberry residence east of town and will move in to McCauley for their home.

Your Herald may have expired, better send the Pot-Shot man your renewal before you miss a paper.

You wouldn't want to be in the dark on what your neighbor is doing and too, oil may start flowing down main street at any minute. And lest ye forget the Cemetery Fund needs your contributions. The Red Cross drive is on and McCauley's quota is \$150. Thanks in advance.

Mr. and Mrs. James Fancher from California have moved back to McCauley for the present. James is the son of Mr. and Mrs. J. M. Fancher of this community.

L. E. Miers and son from Muleshoe visited relatives in this community last week.

C. P. Yates and W. J. Madden of Hamlin were looking over the oil situation in McCauley last Saturday.

A complete line of field seeds has been added to the feed store stock of McCauley Supply Company.

Carl Blomsheld, chairman of the Council Committee on Camping and Activities for the Buffalo Trail Council Boy Scouts of America, has called a special meeting of his committee for Thursday, March 11th, at 7:00 o'clock p. m. at the Settles Hotel in Big Spring. George Darden is a member of the committee from this district.

Lamont Haley, Fisher County Judge, has withdrawn from the race as County Judge to enter the race for Representative. Harley Sadler is the present member of the legislature, but will not seek reelection and has entered the race for the State Senate.

Casing is being set for the new Fisher County wildcat oil well on the W. F. Davidson place, one mile and a half west of McCauley. The well is a new discovery which means

that more development is in the making for these parts.

W. C. (Bill) Kean tells us that he has six weeks old fryers that weigh two pounds and if you like fried chicken, he will sell about 100.

Over 100 special veniremen have been called for Monday of this week in the District Court of Fisher County at Roby. Willie Preston, negro, is to be tried for the robbery and assault with intent to kill Mr. and Mrs. Willard Burk.

There will be a donkey basketball game in the Ed Mason Gymnasium on the night of March 19. You won't want to miss the fun.

The Methodist meeting that was postponed last week in order not to conflict with the Baptist meeting of this week will begin their revival meeting today, March 7. The meeting runs through the 14. You are invited.

Sunday guests in the home of Mr. and Mrs. Frank Houghton were: Mr. and Mrs. Turner Houghton of Roby, L. C. Houghton of Hamlin, Mr. and Mrs. Sherman Houghton and Mr. and Mrs. George Darden and children.

Shortly after the Civil War, the letters GTT were used through out the old South to indicate—Gone to Texas. Many a marchant left his

shop with no other notice than that. Since the McCauley oil boom there may be other merchants who place signs on their doors with read GTM, meaning of course—Gone to McCauley.

Bobbie Crowley, McMurry College, Abilene student, was home with his parents, Mr. and Mrs. Claude Crowley over the week-end.

Mr. and Mrs. John Sewell from Abilene visited her parents, Mr. and Mrs. Albert George last week-end.

John Ed Reed, H. N. Reed and Potts who live west of McCauley leased their land to the Stanard Oil Company last Saturday the reported price was \$5 per acre.

Cecil Woods suffered a broken

ankle when he attempted to load a bull in a trailer last week.

Three weeks ago the highest price offered for one quarter royalty with in a mile of the W. F. Davidson discovery well was \$40 basis, now the price has jumped from \$100 to a \$500 basis. Well anyway we gotta' notion that McCauley citizens are due a break, they weathered the depression, fought sand storms, drank gyp water and many even had to go the WPA route for a livelihood but they kept their chins up and when the war came they stuck together, bought bonds, contributed to the Red Cross, March of Dimes and every worthy cause, sent their boys and girls off to battle and the

battle and the sad part—some never came back. Well after all, maybe the good Lord is going to smile down on our community and direct

Humble, Standard Oil and others to give the home team break with that oily stuff called "flowing gold."—A-Darden-O-Gr
